Interests

- Frontend Web Development
- Building User-Centered Interfaces
- UI/UX Design for Web Products
- Turning Designs into Functional Products
- Performance and Usability Optimization
- Responsive and Mobile-First Design

Profile

I'm a frontend developer and UI/UX designer who really enjoys building clean, user-friendly web experiences that solve real problems and help businesses grow. I've worked on a bunch of projects where I take design ideas and turn them into fast, responsive interfaces using tools like JavaScript, React, Tailwind CSS, and Figma. My focus is always on making things intuitive and efficient.

Technical Skills

- Figma
- Adobe Photoshop
- CSS3
- Javascript
- React
- Next.Js
- TypeScript
- Supabase
- Git and Github

Education

Obafemi Awolowo University (Ile-Ife)

Oct-2023 - Present

Computer Engineering

Professional Experience

Frontend Developer, Market

Dec-2025 - Present

Remote

Collaborated with designers, product leads, and backend engineers to implement features from ideation to deployment, including interactive dashboards, forms, and real-time updates.

Frontend Developer, Kanour Digitals

Jun-2025 - Present

Remote

Collaborated with designers and operations teams to implement service-related features from concept to deployment, including order forms, tracking interfaces, and real-time status updates to improve the delivery experience.

Web Developer, Delite02 Logistics

Jan, 2026 - Present

Remote

Built responsive frontend interfaces using React / Next.js to provide real-time shipment visibility and user-friendly booking experiences for clients and drivers.

Web Developer, Optopcakes

Jul, 2025 - Nov, 2025

Ibadan

Improved online visibility and customer engagement for a growing small business by creating a professional digital presence that supports direct orders, inquiries, and brand storytelling.

UI/UX Designer, Students' Professional Bureau of Finance (BOF OAU)

Jan-2026 - Present

Ile-Ife Osun State

Designed intuitive and engaging user interfaces for a mobile application aimed at empowering university students with practical financial literacy, budgeting tools, and investment awareness

Graphic Designer, Wagasolar

Jan-2025 - Dec-2025

Remote

Delivered consistent, fun branding visuals with bold colors and mouth-watering layouts that helped the small business stand out online and attract more event bookings and daily inquiries.

Interests

- Frontend Web Development
- Building User-Centered Interfaces
- UI/UX Design for Web Products
- Turning Designs into Functional Products
- Performance and Usability Optimization
- Responsive and Mobile-First Design

Accomplishment

- Developed beginner-to-intermediate frontend projects using React, focusing on reusable components and basic state management.
- Translated Figma UI designs into functional web interfaces with close attention to spacing, typography, and usability.
- Improved user experience by applying modern UI/UX principles such as consistency, visual hierarchy, and accessibility.
- Completed multiple hands-on projects to strengthen understanding of frontend development workflows and best practices.
- Managed projects independently from design to implementation, meeting deadlines and maintaining organized code structure.
- Leveraged a background in graphic design to create visually polished and user-friendly interfaces

Volunteer Work

Frontend Developer, Markket

Oct-2023 - Present

Remote

Collaborated with designers, product leads, and backend engineers to implement features from ideation to deployment, including interactive dashboards, forms, and real-time updates.

UI/UX Designer, Students' Professional Bureau of Finance (BOF OAU)

Jan-2026 - Present

Ile-Ife Osun State

Designed intuitive and engaging user interfaces for a mobile application aimed at empowering university students with practical financial literacy, budgeting tools, and investment awareness

Graphic Designer, NACOS OAU

Jan-2023 - Present

Obafemi Awolowo University

Delivered consistent and engaging branding visuals using bold colors and clear layouts to support departmental events and communications, helping improve online visibility and increase student engagement and inquiries.

Graphic Designer, Tekcify

Jan-2024 - Present

Obafemi Awolowo University

Delivered consistent and engaging branding visuals using bold, modern design elements to support Tekcify's tech products, strengthening brand identity and improving online visibility across digital platforms.
